An explanation was presented for how the list for mailing was derived for the upcoming variance hearing. Lambert stated that any mail received is read even if the person does not own property within the 300 ft. The most important issue is the ordinance in question. The group will go separately to the residence to see the property rather than together. Everyone is required to go. The ordinances are in the process of being revised to indicate the new number of ZBA board members. Reinke asked if there any alternates for the ZBA? Chapman explained that any alternate for the planning commission seat is supplied by the Planning Commission. Chair Smith will investigate alternates for the other two seats on the ZBA.

Motion to adjourn by Chapman, seconded by Reinke at 6:50. Motion Passed.
